

NEW ARCHER INFO SHEET

FIND THE BEST BOW FOR A BEGINNER

NAME:

AGE:

HEIGHT:

DRAW WEIGHT:

Draw Weight varies based on archer's strength. Refer to chart below for recommendations*.

Archer's Weight (lbs)	Draw Weight (lbs)
55 - 70	10 - 15
70 - 100	15 - 25
100 - 130	25 - 35
130 - 150	30 - 50
150+	55 - 65

*Hunters: Please check local regulations for minimum draw weights based on game type.

DOMINANT EYE:

☐ LEFT ☐ RIGHT

To determine eye dominance, have the archer form a triangle with their hands. With their elbows straight and both eyes open, lift the triangle until they can see through the hole. The dominant eye is the eye they use to see through the triangle.

Example:

Right eye dominant
